

14 September 1976

MEMORANDUM FOR THE RECORD

FROM : [REDACTED]
Course Coordinator, Senior Operations Course

25X1A

SUBJECT: Operational Profile - SOC 1-77

1. The object of the attached profile is to display graphically the information elicited from the students in our Operational Profile Questionnaire.

2. The Profile serves various purposes, principal among which are:

a. To highlight specific topics on which individual students might make useful presentations in student seminars.

b. To identify the areas of operational experience and skill in which the group as a whole may be discernibly weak or strong. Prepared at the outset of the course, this information can influence to some degree the focus and emphasis of the training we offer in the course. As you know this course is evolutionary in nature and changes each time it is given.

c. To facilitate comparison of the students, and to delimit a profile of the group as a whole, for various reporting purposes.

d. To provide staff instructors, branch chiefs, and especially visiting guest speakers a quick overview of the class, complete with readily discernible clues to the strengths, weaknesses, and background experience of the group.
